

Why Do Patients Prefer AI3

Advanced Imaging and Interventional Institute is the Tampa Bay Area's first and most advanced *FREE-STANDING* center for Interventional Radiology and Vascular Specialties

1. **No Over Night Hospital Stays** – Patients will return to the comfort of their own homes the same day of procedures
2. **Less Costly** - The services that AI3 provides are much less expensive than the same procedures done in a hospital setting and provide a real financial savings. This could make a difference in hundreds of dollars for personal medical expenses from co-pays and deductibles
3. **State-Of-The-Art Equipment** - The interventional suite at AI3 has equipment which is more advanced than most hospitals in the Tampa area and is a national show site for General Electric Corporation
4. **Special Care and Patient Education** - Patients receive extensive education from the medical staff to learn more about themselves and medical conditions
5. **Highly Qualified Physicians** – All of our doctors are board certified Vascular Interventional Radiologists. Dr. Jerry is the present Chairman of the Economics Committee SIR and has been providing a major role in training standards for physicians performing Interventional Radiology
6. **Less likely to become ill from infectious disease** – 5% of all hospital inpatients acquire an infection of some kind during their stay, according to the US Department of Health and Human Services.

AI3 is the first and most advanced
FREE-STANDING Interventional
Radiology and Vascular office in the
Tampa Bay area.
